

# One-Day WORKSHOP

Friday, 22<sup>nd</sup> February, 2013

Venue : Multipurpose Hall

(9:00 a.m. to 4:00 p.m.)

on

## “Mainstreaming of children with Special Needs: Identification & Integration in an Inclusive Setting”

### About The Workshop :

Each individual is unique in this world of diversities. A classroom too is a small world of diversities. A class is generally composed of average (normal) students but a small percentage may be deviated. Even among the group of normal students, no two are alike. Therefore a teacher faces the challenge of catering to the needs of average as well as specific needs of exceptional children. It has been widely recognized that differently abled children can learn better in an inclusive setting. Hence, today's teacher needs to become aware about the identification of exceptionalities among children.

### Objectives of the Workshop:

- Train teachers to recognize diverse traits among children so that they may be helped to bloom into well adjusted personalities.
- Enable teacher educators, teachers & pupil teachers to understand the concept of Inclusive Education
- Develop positive attitude to foster Inclusive Education.
- Learn to use psychological tests for identification & understanding the role of teachers, as facilitators in an Inclusive setting.

### Invite :

We at Ramanujan are inspired by Srinivasa Ramanujan (1887-1920), the great mathematician. Ramanujan College of Education, established by NEC Society, a “not for Profit” educational society, which runs educational institutions approved by NCTE & affiliated to MDU, Rohtak. The college at present offers instructions for 1 year full time B.Ed program with an intake of 100 students. The college regularly organizes seminars, fests, sports, workshops and contests to promote academic excellence.

We are happy to extend an invitation to a one-day Workshop. It provides opportunity to Educators, Teachers & Pupil teachers to plan and manage teaching learning process in an Inclusive Setting

Dr. Sujata Tripathi  
(Principal)
